Host Family Letter

Hand write a letter to your host family telling them why they should choose you. What will you bring to their family life?

What do you hope to learn?

Hello, my name is Tanat Lawvinitnun, you can call me "Fiat", it's my nickname. I was named after my parent's first car, it's my favorite car when I was a child. I am 172 cm. tall and I'm a 11th grade student. I'm studying in Kasetsart University Laboratory School Center of Educational Research and Development (it's the longest school name in the world!) My favourite subjects are English, Music, Science. I'm not so good at Math and sports. I am a funny person, I'm also sensitive caring and emotional. I'm a bit shy and quiet sometimes, but usually I'm cheerful and funny. I enjoy watching movies, plays, etc. I also enjoy playing/listening music, singing and gardening. I love nature. I'm interested science, art, music, technology and history. I love visiting museums and galleries. I love children, I can get along with children in any age (from babies to my age). I like pets, but because of my allergies, pets must be kept outside of the house.

And that's the introduction about myself, now about my family. There are 5 members in my family, my mother, my father, my sister, myself and my aunt (actually she's my nanny but she's been with our family since my mother was a child, so she a family member now.)

My mother is a business woman, she interests in reading, volunteering and gardening. My father is also a business man, he exports furniture to countries in Europe and Asia. He enjoys flying light aircrafts (so much!). On weekends he spend time fixing things in the house, I sometimes helped him. My sister, who is 2 years younger than me, is a 9th grade student. She enjoys painting drumming. She interests in music (drum), art, and gemology (she like gemstones so much!)

I'm very excited to go to America. I've been to America only one time and it's long time ago, so I barely know about America. I know that there's big differences between Thai culture and American way of life, for example, in Thailand number of students per an ordinary class room is about 30-40 students which is quite big if compared to the USA. And that is the reason why coming to America is challenging to me, I will meet new things, new people, new family and new environments.

From coming to America this time would help me to learn a different way of life, we can exchange our culture and if you've never been to Thailand or any parts of Asia, I could cook you some Thai food and introduce you to various features of Asia. This would be a great opportunity for both of us from different part of the world to get to know each other (I always wanted to visit American historical places.)

I hope that when I come back after 10 month in USA. I'd be stronger, tougher, more broad-minded and gain lots of valuable experiences.

Finally, I very excited and a bit nervous and wonder what my host family is going to be like?

Looking forward to meet you.

Sincerely Yours,

Tanat Lawvinitnun (Fiat).
